

K-LOVE serves me and my family as a resident of NM by providing the kind of music and commentary that we find entertaining and informative. If K-LOVE were to be displaced by an LPFM broadcaster providing other program, we would not be able to enjoy music we have grown to love and the impact would be to have no other option but to find other means of hearing the music and the commentators, most likely not by radio. The information provided by K-LOVE is timely, thought provoking and stimulating. There is no absurdity as found on other stations. It is wholesome and parents have no fear of allowing their children to listen without worrying they will hear poorly chosen comments and language. Christian music and thought has a right to be on the airwaves and not placed in a second rate setting. Family friendly program is hard to come by in the first place and that is a shame on our culture, please do not displace K-LOVE. Many thanks...
